Open Position

Development Engineer (Junior) – Hardware (m/w/d) – Full Time – in Munich / Greater Munich

You want to be challenged and you want to start and grow in your career faster than others. Then we need your support in our DX-Development Team! As a “Development Engineer (Junior) – Hardware (m/w/d)” you'll help our developers identify and exploit opportunities to improve DX-Labtrack products. Your goal is to disrupt medical decision making in the future and build a solid basis for those that use precision medicine. You have no special expertise for these areas? Do not worry! With us "Learning by doing" - you will be informed in detail about your activities and always have a contact person for questions and support at your side. You take over the following tasks:

Your Tasks

As our Development Engineer for Hardware (Junior) (m/f/d) you are working in our development core team and you will play a key role in developing our product.

- You will develop and improve our hardware
- You will evaluate and choose components
- You will design electrical circuits
- You will work closely with all our developers
- You will build, test and improve prototypes

Requirements

- Bsc. / Msc. in electronics or medical engineering
- Experience in rapid prototyping (recommended)
- Experience in designing electrical circuits
- Creativity
- Very good knowledge of German (min. C1) and knowledge of English (min. B2)
